2. Of the state-owned locomotives, 96 were parked as a reserve for the Ministry of Railroads and 49 for the regional railroad headquarters. 2
3. Of the column locomotives, 123 were operational and 102 were being kept cold as a reserve. 3
4. Locomotive No 081001, a French locomotive, was transferred from the park of state-owned locomotives to the park of foreign-owned locomotives.
5. A total of 177 locomotives of various types were hired out to industrial enterprises for factory requirements. 4

25X1.

Comment. For photograph of original tabulation, see Annex. The tabulation contains additional information on the types of locomotives available and the number of locomotives repaired in railroad repair shops and railroad maintenance shops during September 1953.

As compared with August, the number of state-owned locomotives decreased by one which was transferred to the park of foreign-owned locomotives. Some locomotives were repaired and transferred from the park of damaged locomotives to the park of operational locomotives. The number of state-owned coal dust-firing locomotives decreased by 2. While the total number of column locomotives remained constant the number of operational column locomotives decreased by 12. The park of foreign-owned locomotives increased by 1 while the number of narrow-gauge locomotives remained constant.

25X1.

Comment. The locomotive reserve of the Ministry of Railroads increased by 1 unit, while the reserve of the regional railroad headquarters decreased by 22 units, probably in connection with harvest shipments.

25X1.

Comment. As compared with August, there were slight fluctuations between the number of operational column locomotives and column locomotives kept in reserve.

25X1.

Comment. In August, a total of 168 locomotives were hired out. These locomotives are included in the total of locomotives mentioned in paragraph 1 of the present report.
